

Interior Brown Antique Barn Siding

100% RECLAIMED – NATURALLY WEATHERED BARN SIDING

Graded and milled to utilize only the interior side of each board, this siding displays the side of the wood that sheltered from the elements.

This gives a more uniform and less scarred texture than its exterior counterpart while maintaining the same rustic authenticity. While primarily pine, some variance in species is to be expected.

AUTHENTIC BARN SIDING FROM OUR NATIONS'S PAST.

Olde Wood's reclaimed barn siding gives a completely unique look to any interior or exterior wall covering. This authentically recycled lumber is virtually maintenance free and has already stood the test of time having survived 100+ years of harsh weathering in the northeastern part of our nation. True beauty earned with age. Each board is individually inspected and graded to ensure durability, preservation and long life.

BARN SIDING SPECS:

Hand-selected from weathered barns of the American Northeast, each board is individually inspected and graded to ensure durability, preservation and long life.
