# VINTAGE HICKORY

## TRADITIONALLY MILLED – THE WAY THEY USED TO DO IT

Characterized by a blend of light and dark tones and smooth, robust grain patterns, our traditional Vintage Hickory presents a wood of unparalleled strength and hardness in its most rustic form. Vintage Hickory brings to your home the towering grandeur of the forests that dominate America's East and Midwest.

## DISTINCTIVE ATTRIBUTES

Vintage Hickory wide plank flooring is milled from fully matured logs that are live-sawn through and through using a 60-inch circular saw blade--imparting its rustic saw-mark texture. Vintage Hickory features wide variations in color – from blondes to deep russet tones – and a delicate balance of sound knots and natural checking. It is the strongest wood commercially available.
